

Interim Report

For the period January–June 2016 • July 22, 2016

January - June 2016

Compared to January – June 2015

- Net operating profit decreased by 27 per cent to EUR 12.6 M (17.3).
- Profit for the period attributable to shareholders decreased by 30 per cent to EUR 9.8 M (14.0).
- Net interest income increased by 7 per cent to EUR 27.5 M (25.6).
- Net commission income decreased by 11 per cent to EUR 22.1 M (24.7).
- Total expenses increased by 2 per cent to EUR 46.0 M (45.3).
- Net impairment losses on loans (including recoveries) amounted to EUR 2.1 M (0.5), equivalent to a loan loss level of 0.12 (0.03) per cent.
- Return on equity after taxes (ROE) amounted to 9.2 (14.2) per cent.
- Earnings per share amounted to EUR 0.64 (0.92).
- The core Tier 1 capital ratio, not taking into account transitional rules, amounted to 12.4 per cent (12.0 on December 31, 2015).

The second quarter of 2016

Compared to the second quarter of 2015

- Net operating profit decreased by 41 per cent to EUR 4.6 M (7.8).
- Profit for the period attributable to shareholders decreased by 44 per cent to EUR 3.5 M (6.2).
- Net interest income increased by 5 per cent to EUR 13.5 M (12.9).
- Net commission income decreased by 9 per cent to EUR 10.8 M (11.9).
- Total expenses increased by 6 per cent to EUR 23.8 M (22.5).
- Net impairment losses on loans (including recoveries) amounted to EUR 1.7 M (0.3), equivalent to a loan loss level of 0.19 (0.04) per cent.
- Return on equity after taxes (ROE) amounted to 6.5 (12.5) per cent.
- Earnings per share amounted to EUR 0.23 (0.41).

“Our net interest income turned out well, considering the negative market interest rates now prevailing in financial markets, but market worries have lowered the level of activity in our financial investment operations. Our net commission income fell – especially income from securities brokerage, which was EUR 1.5 M lower than for the same period of 2015.

“During the past year, we have recruited additional advisors in order to guarantee a continued high level of service to our existing and new customers both in Sweden and Finland. This investment in human resources increased our staff costs by more than EUR 1 M during the first half of 2016. The percentage of non-performing loans has declined steadily over the past year, and the second quarter’s higher loan losses should thus not be regarded as the beginning of a new trend.

“The Bank of Åland is continuing to attract new customers and we are steadily growing, but the current market situation – including a further increase in volatility due to the British referendum vote to leave the European Union – implies that it will be challenging to reach last year’s record earnings.”

Peter Wiklöf, Managing Director

Lending

The Bank of Åland is a bank with strong customer relationships and personal service. The Bank has extensive financial investment expertise and at the same time can offer good financing services. The commercial bank was founded in 1919 and has been listed on the Nasdaq Helsinki Oy (Helsinki Stock Exchange) since 1942. The Bank of Åland’s Head Office is in Mariehamn. The Bank has five offices in the Åland Islands, five offices elsewhere in Finland and three offices in Sweden. A total of three subsidiaries, whose operations are connected in various ways to banking, belong to the Bank of Åland Group.

¹² Equity capital / Number of shares less own shares on closing day

Comments

MACRO SITUATION AND REGULATORY REQUIREMENTS

The central banks in Europe are continuing their expansionary monetary policies in the form of asset purchases and low key interest rates in the hope of generating economic growth and inflation. During the first half of 2016, Sweden's Riksbank lowered its key rate by 15 basis points to -0.50 per cent, while the European Central Bank (ECB) lowered its key rate by 5 points to 0.00 per cent and its deposit rate for banks by 10 points to -40 per cent. Low interest rates squeeze the net interest income of banks and increase the risks of asset bubbles in national economies. The United Kingdom's decision to leave the European Union is also boosting international uncertainty.

BENCHMARK INTEREST RATES, AVERAGES, PER CENT

	Q2 2016	Q1 2016	Q2 2015
Euribor 3 mo	-0.26	-0.19	-0.01
Euribor 12 mo	-0.02	0.01	0.17
Stibor 3 mo	-0.46	-0.40	-0.19

During the first half of 2016, share prices fell by about 8 per cent on the Nasdaq Helsinki (OMXHPI) and by about 7 per cent on the Nasdaq Stockholm (OMXSPI). Stock market turmoil resulted in lower customer share trading activity.

The average value of the Swedish krona in relation to the euro was 0.6 per cent lower during the first half of 2016 than in the corresponding period of 2015. Compared to its position at the end of 2015, the value of the krona on June 30, 2016 was 2.5 per cent lower. When translating the income statement of the Bank of Åland's Swedish operations into euros, the average exchange rate for the period has been used, while the balance sheet has been translated at the exchange rate prevailing on the closing day.

IMPORTANT EVENTS

The Bank of Åland is launching a completely new type of biodegradable credit card – the Baltic Sea Card – which allows its users to see how much carbon dioxide emissions their purchases result in, on average. Baltic Sea Card users receive an estimate of the environmental impact of their consumption via the Bank's Internet Office or mobile app. When it is time to pay the bill, the customer also has the opportunity to donate money to various environmental projects. By making clear how consumers influence the environment, the Bank of Åland hopes to enable them to make conscious decisions in their everyday lives. The environmental accounting they receive is based on the unique Åland Index, developed by the Bank of Åland. This summer, the Bank is starting to gradually replace its existing cards on the Finnish mainland and in Åland with the new Baltic Sea Cards. The cards will soon be issued in Sweden as well.

The mutual fund management subsidiary Ålandsbanken Fondbolag and United Bankers reached an agreed that management of the Bank of Åland LCR Income Fund will be transferred to United Bankers' fund management company. This transfer is a result of United Bankers' acquisition of Optium Oy, which was a partner company involved in the distribution of the LCR Fund to local cooperative banks, which are the main investors in the Fund. The transfer is conditional upon approval by the Finnish Financial Supervisory Authority (FSA) and is

expected to occur early this autumn. Until then, the Fund's operations will continue in the normal way. The LCR Fund's total assets on June 30, 2016 were EUR 57 M.

In April the Swedish-based financial technology (fintech) company Dreams, in collaboration with the Bank of Åland, launched an app that focuses on healthy personal finances and the realisation of dreams through saving. On June 30, the Bank of Åland had about 2,200 customers with Dreams accounts.

The Annual General Meeting (AGM) on April 14, 2016 elected Åsa Ceder as a new member of the Board of Directors. The AGM re-elected Board members Nils Lampi, Christoffer Taxell, Anders Å. Karlsson, Göran Persson, Ulrika Valassi, Anders Wiklöf and Dan-Erik Woivalin. At the statutory meeting of the Board the same day, Nils Lampi was elected as Chairman and Christoffer Taxell as Deputy Chairman of the Board. The AGM approved the payment of a dividend of EUR 0.60 per share for the financial year 2015.

The number of Series B shares outstanding increased by 59,267. In February, the Bank of Åland issued 33,582 Series B shares to fulfil the Bank's obligations within the framework of its 2015 share savings programme for employees. In March, the Bank of Åland divested 5,394 Series B shares that had been in the Bank's possession and issued 20,291 new Series B shares for the implementation of its incentive programme.

As part of the Bank of Åland's Baltic Sea Project, nine good environmental ideas were able to share EUR 113,000.

The information technology (IT) subsidiary Crosskey and the Swedish-based savings bank card company Sparbankernas Kort AB entered into a long-term business relationship, in which Crosskey together with Compass Card will provide comprehensive service for the card business of Sparbankernas Kort AB.

S-Bank, which is one of Finland's largest card issuers, began using Crosskey's card system in March.

Crosskey's data migration project, which merged the banking systems of S-Bank (S-Pankki), LocalTapiola (LähiTapiola) Bank and FIM during 2013-2015, won the Best IT Project of the Year award at Management Events' Executive IT event in Helsinki.

For the third consecutive year, the Bank of Åland (Ålandsbanken) Euro Bond Fund was named the best Nordic fund in its category and received the prestigious Lipper Fund Award Nordic. The Fund won the award for all management periods that were analysed: 3, 5 and 10 years.

Early in 2016 Ålandsbanken Fondbolag launched a new specialised mutual fund, Tomtfonden, which is the first of its kind in Finland. The fund invests in housing sites intended for leasing. The sites are leased out to construction companies and limited liability housing companies. The fund invests in growth regions of Finland with a well-functioning property market.

EARNINGS FOR THE SECOND QUARTER OF 2016

Profit for the period attributable to shareholders amounted to EUR 3.5 M (6.2), which was a decrease of EUR 2.7 M or 44 per cent from the year-earlier quarter. Net operating profit fell by EUR 3.2 M or 41 per cent to EUR 4.6 M (7.8).

Return on equity after taxes amounted to 6.5 (12.5) per cent.

Total income decreased by EUR 0.5 M or 2 per cent to EUR 30.1 M (30.6) despite higher net interest income.

Due to re-pricing in the loan portfolio, lower funding costs and volume growth, net interest income increased by EUR 0.6 M or 5 per cent to EUR 13.5 M (12.9), but the effect of negative central bank interest rates is beginning to be increasingly noticeable. Compared to the immediately preceding quarter, net interest income decreased by EUR 0.4 M or 3 per cent.

Net commission income fell by EUR 1.1 M or 9 per cent to EUR 10.8 M (11.9), mainly due to lower income from brokerage commissions and lower card-related income from Compass Card.

Net income on financial items at fair value increased by EUR 0.3 M or 14 per cent to EUR 1.9 M (1.6), mainly due to higher capital gains in the liquidity portfolio.

Information technology (IT) income fell by EUR 0.5 M or 12 per cent to EUR 3.7 M (4.2) due to lower project income.

Total expenses increased by EUR 1.3 M or 6 per cent to EUR 23.8 M (22.5). These expenses included EUR 0.5 M as a finally determined reduction in purchase price related to the Swedish subsidiary that was sold in 2012.

Impairment losses on loans amounted to EUR 1.7 M, equivalent to a loan loss level of 0.19 per cent, compared to EUR 0.3 M and 0.04 per cent in the year-earlier quarter. Most of these impairment losses were related to further provisions for two corporate commitments at the Special Funding unit in Helsinki.

EARNINGS FOR JANUARY – JUNE 2016

Profit for the period attributable to shareholders amounted to EUR 9.8 M (14.0), which was a decrease of EUR 4.2 M or 30 per cent from the year-earlier period. Net operating profit fell by EUR 4.7 M or 27 per cent to EUR 12.6 M (17.3). The main explanations for the lower net operating profit were:

- Higher impairment losses on loans (EUR 1.6 M)
- Lower brokerage commission income (EUR 1.5 M)
- Lower income from Crosskey's IT operations (EUR 0.6 M)
- The nonrecurring effect of the final purchase price reduction (EUR 0.5 M)
- Lower card-related income from Compass Card (EUR 0.5 M)

Return on equity after taxes amounted to 9.2 (14.2) per cent.

Total income decreased by EUR 2.3 M or 4 per cent to EUR 60.7 M (63.0) despite higher net interest income.

Due to re-pricing in the loan portfolio, lower funding costs and volume growth, net interest income increased by EUR 1.9 M or 7 per cent to EUR 27.5 M (25.6), but the effect of negative central bank interest rates is beginning to be increasingly noticeable.

Net commission income fell by EUR 2.6 M or 11 per cent to EUR 22.1 M (24.7), mainly due to lower income from brokerage commissions and lower card-related income from Compass Card. Lower card-related income from Compass Card was partly due to lower interchange fees in compliance with new EU rules but primarily to the end of collaboration with S-Bank as agreed earlier.

Net income on financial items at fair value decreased by EUR 0.7 M or 18 per cent to EUR 3.4 M (4.1), mainly due to lower net income on foreign exchange dealing.

IT income fell by EUR 1.7 M or 19 per cent to EUR 6.8 M (8.5) due to lower project income.

Total expenses increased by EUR 0.7 M or 2 per cent to EUR 46.0 M (45.3). These expenses included EUR 0.5 M as a finally determined reduction in purchase price related to the Swedish subsidiary that was sold in 2012. Expenses were favourably affected by lower depreciation and amortisation as well as higher production for own use. Production for own use largely refers to capitalised development expenses for the Bank's new securities platform, which is being developed by Crosskey.

Impairment losses on loans amounted to EUR 2.1 M, equivalent to a loan loss level of 0.12 per cent, compared to EUR 0.5 M and 0.03 per cent in the year-earlier period. Most of these impairment losses were related to further provisions for two corporate commitments at the Special Funding unit in Helsinki.

Tax expenses amounted to EUR 2.8 M (3.3), equivalent to an effective tax rate of 22.0 (19.2) per cent.

STRATEGIC BUSINESS AREAS

The decrease in the Group's net operating income by EUR 4.7 M to EUR 12.6 M in the first half of 2016 was allocated as follows:

- Private Banking 2.0 (lower brokerage commissions, higher expenses)
- Premium Banking 1.3 (impairment losses)
- Asset Management -0.5 (lower income)
- IT -0.6 (lower income)
- Corporate units & Eliminations -0.3 (Compass Card worse, Treasury better, purchase price reduction)

BUSINESS VOLUME

Financial investment volume decreased by EUR 748 M or 11 per cent during the first half and amounted to EUR 6,328 M on June 30, 2016 (7,076 on December 31, 2015). The net inflow into actively managed assets amounted to EUR 92 M during the first half, but due to the trend of market values, actively managed assets decreased by EUR 185 M or 5 per cent and amounted to EUR 3,773 M (3,958). Assets under discretionary management fell by EUR 185 M or 10 per cent to EUR 1,685 M (1,870). Managed assets in the Bank of Åland Group's own mutual funds rose by EUR 90 M or 7 per cent to EUR 1,360 M (1,272). There was continued heavy interest in the Bank of Åland's housing-related mutual funds. Net inflow into Bostadsfonden and Tomtfonden was EUR 95 M.

Deposits from the public – including certificates of deposit, index bonds and subordinated debentures issued to the public – increased by EUR 219 M or 8 per cent during the first half of 2016 and amounted to EUR 2,894 M (2,675).

Lending to the public totalled EUR 3,629 M (3,617).

CREDIT QUALITY

Lending to private individuals comprises more than two thirds of the loan portfolio. Home mortgage loans account for 72 per cent of lending to private individuals. Loans for the purchase of securities, with market-listed securities as collateral, comprise the second-largest type of lending to private individuals. Loan-to-value ratios are conservative. Historically, the Bank of Åland has not had any substantial loan losses on this type of lending.

The corporate portfolio has a close affinity with the household portfolio, since many of the companies are owned by customers who, as individuals, are also Private Banking customers.

Gross doubtful receivables decreased by EUR 7.7 M or 25 per cent to EUR 23.7 M (31.4) during the first half of 2016. As a share of lending to the public, doubtful receivables decreased to 0.65 per cent (0.87) during the period. The level of provisions for doubtful receivables, i.e. individual impairment losses as a proportion of all doubtful receivables, was 51 per cent compared to 34 per cent at year-end 2015.

The Bank of Åland Group had EUR 13.6 M (11.8) in impairment loss provisions, of which individual impairments totalled EUR 12.1 M (10.6) and group impairments EUR 1.5 M (1.2).

LIQUIDITY AND BORROWING

During the first quarter about EUR 80 M in unsecured bonds – which did not need to be refinanced – reached maturity. This is the year's only maturity of an external long-term debt.

The Bank of Åland's liquidity reserve in the form of cash, account balances and investments with other banks, liquid interest-bearing securities plus holdings of unencumbered covered bonds issued by the Bank amounted to EUR 905 M on June 30, 2016 (805 on December 31, 2015). This was equivalent to 19 (18) per cent of total assets and 25 (22) per cent of lending to the public. Given the Bank's ability to issue further covered bonds, there is an additional unutilised liquidity reserve.

The average remaining maturity on outstanding bonds was about 3.2 years (3.3).

The Bank of Åland's core funding ratio, defined as lending to the public divided by deposits from the public including certificates of deposit, index bonds and subordinated debentures issued to the public, plus covered bonds issued, amounted to 94 (100) per cent.

The liquidity coverage ratio (LCR) amounted to 107 (91) per cent.

The net stable funding ratio (NSFR) amounted to 109 (108) per cent.

RATING

The Bank of Åland has a credit rating from the Standard & Poor's rating agency of BBB/A-3 with a negative outlook for its long- and short-term borrowing. Covered bonds issued by the Bank of Åland have a credit rating of AAA with a stable outlook.

EQUITY AND CAPITAL ADEQUACY

Equity capital changed in the amount of total comprehensive income for the period, EUR 7.5 M; the share savings programme, EUR 0.7 M; the transfer of own shares and the issuance of new shares within the framework of incentive programmes, EUR 0.4 M; plus the payment of EUR 9.2 M in dividends to shareholders. On June 30, 2016, equity capital totalled EUR 212.2 M (212.9 on December 31, 2015).

Other comprehensive income included re-measurements of defined-benefit pension plans by EUR -3.0 M after taxes, in compliance with IAS 19.

Starting on June 30, 2016 a risk exposure of EUR 472 M is being recognised in the Bank of Åland's corporate portfolio in Finland according to the internal ratings-based (IRB) approach in the capital adequacy report. Compared to the standardised approach, this represented a decrease of EUR 14 M in the risk

exposure amount, while expected losses beyond recognised losses increased by EUR 5.8 M. The probability of default (PD) and loss given default (LGD) risk parameters that are used in calculating the expected loss and the risk exposure amount include cyclical as well as safety margin add-ons plus corrections for limited underlying data. These add-ons were determined by the Finnish Financial Supervisory Authority (FSA). The transition from the standardised approach to the IRB approach lowered the Bank of Åland's core Tier 1 capital ratio by 0.3 percentage points.

According to the simplified model, 0.1 per cent of the value of assets and liabilities was carried at fair value on the reduced capital base on the closing day. This decreased the Bank of Åland's core Tier 1 capital by EUR 1.1 M.

Core Tier 1 capital decreased by EUR 3.7 M or 2 per cent during the first half of 2016 to EUR 185.8 M (189.5), mainly due to the transition to the IRB approach for the corporate portfolio in Finland as well as the additional adjustment in the value of assets to fair value. Before negative items, core Tier 1 capital rose by EUR 4.7 M.

The risk exposure amount decreased by EUR 81 M or 5 per cent during the first half of 2016 to EUR 1,500 M (1,581). The credit risk exposure amount fell by EUR 97 M. Of this, the transition to the IRB approach for the Finnish corporate portfolio represented a decrease of EUR 14 M. The operational risk exposure amount, calculated using a three-year rolling average of the Group's income, increased by EUR 16 M.

The core Tier 1 capital ratio increased to 12.4 per cent (12.0). Since the Bank of Åland has no hybrid capital, its core Tier 1 capital ratio is the same as its Tier 1 capital ratio.

In addition to the basic capital requirement, various buffer requirements are being introduced, mainly imposed by national regulatory authorities. The capital conservation buffer requirement, 2.5 per cent of core Tier 1 capital, applies in all European Union countries starting in 2015. The countercyclical capital buffer requirement may vary between 0-2.5 per cent. The decision concerning the size of a countercyclical capital buffer in Finland is made quarterly by the Board of the Financial Supervisory Authority (FSA) on the basis of a macroeconomic stability analysis. So far, the FSA has not imposed any countercyclical buffer requirement related to Finnish exposures. As for Sweden, the Swedish FSA imposed a requirement of 1.5 per cent of Swedish exposures starting in June 2016. The Finnish FSA has identified systemically important institutions in Finland and has imposed individual buffer requirements for them. These requirements went into effect at the beginning of 2016. The Bank of Åland is not included in the buffer requirements for systemically important institutions.

The total capital ratio amounted to 13.5 (12.9) per cent.

IMPORTANT EVENTS AFTER CLOSE OF REPORT PERIOD

Changes in the Bank of Åland's Executive Team were announced in July.

Tony Karlström, head of Asset Management, will leave the Executive Team on October 31, 2016 because on November 1, 2016 he will take over as the Managing Director of the insurance companies Försäkringsaktiebolaget Alandia and Försäkringsaktiebolaget Liv-Alandia.

Birgitta Dahlén, Director of the Åland Business Area, will retire on March 15, 2017 and thus leave the Executive Team.

Their replacements will be recruited during the autumn of 2016.

RISKS AND UNCERTAINTIES

The Bank of Åland's earnings are affected by external changes that the Company itself cannot control. Among other things, the Group's trend of earnings is affected by macroeconomic changes and changes in general interest rates, share prices and exchange rates, along with higher expenses due to regulatory decisions and directives as well as the competitive situation.

The Group aims at achieving operations with reasonable and carefully considered risks. The Group is exposed to credit risk, liquidity risk, market risk, operational risk and business risk.

The Bank does not engage in trading for its own account.

The Bank of Åland has no direct exposure to the "GIIPS" countries (Greece, Italy, Ireland, Portugal and Spain) or to Cyprus, Russia or Ukraine.

FUTURE OUTLOOK

In light of developments in the fixed income and stock markets, the Bank of Åland is now revising its full-year outlook for 2016.

The Bank of Åland expects its net operating profit in 2016 to be about the same or lower than in 2015. The Bank's earlier expectation was that net operating profit would be about the same as in 2015.

The Bank of Åland is especially dependent on the performance of the fixed income and stock markets. There are clear concerns regarding economic performance in several important markets as well as geopolitical worries, especially due to developments in the Middle East. For this reason, there is significant uncertainty in the current forecast for the future.

FINANCIAL INFORMATION

The Interim Report for January–September 2016 will be published on Tuesday, October 25, 2016.

Notes to the consolidated interim report

1. Corporate information

The Bank of Åland Plc (Ålandsbanken Abp) is a Finnish public limited company with its Head Office in Mariehamn. It is a commercial bank with a total of 13 offices. Through its subsidiary Crosskey Banking Solutions Ab Ltd, the Bank of Åland Group is also a supplier of modern banking computer systems for small and medium-sized banks.

The Head Office of the Parent Company has the following address:
Bank of Åland Plc
Nygatan 2
AX-22100 Mariehamn, Åland, Finland

The shares of the Bank of Åland Plc are traded on the Nasdaq Helsinki Oy (Helsinki Stock exchange).

The Interim Report for the financial period January 1–June 30, 2016 was approved by the Board of Directors on July 21, 2016.

2. Basis for preparation of the interim report and essential accounting principles

BASIS FOR PREPARATION OF THE INTERIM REPORT

This Interim Report for the period January 1–June 30, 2016 has been prepared in compliance with the International Financial Reporting Standards (IFRSs) and International Accounting Standards, IAS 34, "Interim Financial Reporting", which have been adopted by the European Union.

The Year-end Report does not contain all information and notes required in annual financial statements and should be read together with the consolidated financial statements for the year ending December 31, 2015.

Tables show correct rounded-off figures on each line, but this does not mean that rounded-off figures add up to the correct total.

The impact on earnings of the divestment of businesses and strategic shareholdings, as well as restructuring expenses in connection with major organisational changes and discontinuation of business operations, are defined as nonrecurring items.

ESSENTIAL ACCOUNTING PRINCIPLES

The essential accounting principles used in preparing the Interim Report are the same as those used in preparing the financial statements for the year ending December 31, 2015.

COMING CHANGES

On July 24, 2014, the International Accounting Standards Board (IASB) published the standard IFRS 9, "Financial instruments", which will replace IAS 39, "Financial instruments: Recognition and Measurement". IFRS 9, "Financial instruments" includes new approaches to classification and measurement of financial instruments, a forward-looking "expected loss" impairment model and simplified conditions for hedge accounting. The categories for financial assets contained in IAS 39 are being replaced by three categories, with measurement taking place either at amortised cost, fair value reported under "Other comprehensive income" or fair value reported via the income statement ("profit and loss"). The classification into these three categories is based on a company's business model for the various holdings and the characteristics of the cash flows that result from the assets.

It will still be possible to apply the fair value option for debt instruments in cases where this eliminates or significantly reduces an accounting mismatch. For equity instruments, measurement shall normally occur at fair value via the income statement, with an initial choice to instead recognise changes in the value of equity instruments not held for trading under "Other comprehensive income". Most of the portions of IFRS 9 concerning financial liabilities coincide with the earlier rules in IAS 39, except with regard to financial liabilities voluntarily measured at fair value according to the "fair value option". For these liabilities, the change in value is divided into changes attributable to the company's own creditworthiness or to changes in a benchmark interest rate.

The new impairment model will require accounting for 12-month expected credit losses, from the date when the asset is first recognised. In case of a significant increase of credit risk, the impairment loss shall be equivalent to the credit losses that are expected to occur during the remaining life of the loan. Among other things, the new hedge accounting rules simplify effectiveness testing and expand the scope of eligible hedging instruments and hedged items. The standard will go into effect on January 1, 2018, and earlier application is allowed provided that the EU has adopted the standard. The Bank of Åland is still evaluating its impact on financial reporting, the consolidated balance sheet, the income statement and capital adequacy.

IFRS 15, "Revenue from contracts with customers". The purpose of a new revenue standard is to have a single principle-based standard for all industries, which can replace existing standards and statements on revenue. According to IFRS 15, companies shall recognise revenue in an amount that reflects the compensation to which the company expects to be entitled in exchange for transferring goods or services to a customer. The revenue standard also includes expanded disclosure requirements. IFRS 15 will go into effect on January 1, 2018, and earlier application is allowed provided that the EU has adopted the standard. The Bank of Åland is still evaluating its impact on the Group's financial reports.

Other new and amended IFRSs are not expected to have any significant effect on the Bank of Åland's financial reports.

- Amended IFRS 11, "Joint arrangements: Accounting for acquisitions of interests in joint operations"
 - IFRS 14, "Regulatory deferral accounts" *
 - IFRS 16 "Leases" *
 - Amended IAS 1, "Presentation of financial statements: Disclosure initiative". The amendment contains a clarification that the materiality of disclosures shall be the primary consideration in presenting financial statements.
 - Amended IAS 7, "Statement of cash flows: Disclosure Initiative" *. The amendment contains new disclosure requirements that help users to evaluate the financial effects of cash flows changes arising from financing activities.
 - Amended IAS 16 and IAS 38, "Clarification of acceptable methods of depreciation and amortisation"
 - Amended IAS 19, "Employee benefits: Defined benefit plans – Employee contributions"
- (* Has not yet been approved by the EU)

ESTIMATES AND JUDGEMENTS

Preparation of this interim report in compliance with IFRSs requires the Company's Executive Team to make assessments, estimates and assumptions that affect the application of accounting principles and the recognised amounts of assets and liabilities, income and expenses as well as disclosures about commitments. Although these estimates are based on the best knowledge of the Executive Team on current events and measures, the actual outcome may diverge from the estimates.

3. Segment report

The Bank of Åland Group reports operating segments in compliance with IFRS 8, which means that operating segments reflect the information that the Group's Executive Team receives.

"Private Banking" encompasses Private Banking operations in Åland, on the Finnish mainland and in Sweden. "Premium Banking" encompasses operations in all customer segments excluding private banking in Åland, on the Finnish mainland and in Sweden. "Asset Management" encompasses the Bank of Åland Group's asset management organisation in Finland and Sweden including Ålandsbanken Fondbolag Ab. "IT" encompasses the subsidiary Crosskey Banking Solutions Ab Ltd including S-Crosskey Ab. "Corporate and Other" encompasses all central corporate units in the Group, including Treasury and the subsidiary Ab Compass Card Oy Ltd.

Financial instruments for which there is price information that is easily available and that represent actual and frequently occurring transactions are measured at current market price. For financial assets, the current purchase price is used. For financial liabilities, the current sale price is used. The current market price of groups of financial instruments that are managed on the basis of the Bank's net exposure to market risk equals the current market price that would be received or paid if the net position were divested.

In the case of financial assets for which reliable market price information is not available, fair value is determined with the help of measurement models. Such models may, for example, be based on price comparisons, present value estimates or option valuation theory, depending on the nature of the instrument. The models use incoming data in the form of market prices and other variables that are deemed to influence pricing. The models and incoming data on which the measurements are based are validated regularly to ensure that they are consistent with market practices and generally accepted financial theory.

The measurement hierarchy

Financial instruments that are measured according to quoted prices in an active market for identical assets/liabilities are categorised as Level 1. Financial instruments that are measured using measurement models that are, in all essential respects, based on market data are categorised as Level 2. Financial instruments that are measured with the help of models based on incoming data that cannot be verified with external market information are categorised in Level 3. These assets essentially consist of unlisted shares. Such holdings are generally measured as the Bank's portion of the net asset value of the company. Unlisted shares are essentially classified as available for sale. The changes in the value of these holdings are reported in "Other comprehensive income".

In the above tables, financial instruments measured at fair value have been classified with regard to how they have been measured and the degree of market data used in this measurement on closing day. If the classification on closing day has changed, compared to the classification at the end of the previous year, the instrument has been moved between the levels in the table. During the period, no instruments were moved between Levels 1 and 2. Changes in Level 3 are presented in a separate table.

Change in Level 3 holdings	Jan-Jun 2016

Financial collateral pledged	0	-1	0	-1	
Total amounts not offset in the balance sheet	-15	-1	-12	-1	
Net amount	8	0	7	0	

The tables report financial instruments that were offset in the balance sheet in compliance with IAS 32 and those that were covered by legally binding master netting agreements or similar agreements not qualified for netting. The financial instruments consisted of derivatives, repurchase agreements (repos) and reverse repos, securities deposits and securities loans. Collateral consisted of financial instruments or cash received or paid for transactions covered by legally binding netting agreements or similar agreements. The value of the collateral was limited to the related amount recognised in the balance sheet, so the excess value of collateral is not included. Amounts not offset in the balance sheet are presented as a reduction in the carrying amount of financial assets or liabilities in order to recognise the net exposure of the asset and liability.

Under previously applicable rules, the Bank of Åland subtracted an amount from core Tier 1 capital related to a property revaluation that was carried out when the Bank transitioned to IFRSs. According to the now-applicable rules, since January 1, 2015 this amount may no longer be subtracted. In the above table, comparative figures for 2015 have been adjusted accordingly. Because of this adjustment, a core Tier 1 capital ratio of 11.2 (11.1) per cent is recognised for the second quarter of 2015 and a core Tier 1 capital ratio of 12.0 (11.9) per cent is recognised for the last quarter of 2015. The total capital ratio is unchanged.

Report on review of the interim report of Ålandsbanken Abp as of and for the six-month period ending June 30, 2016

To the Board of Directors of Ålandsbanken Abp

INTRODUCTION

We have reviewed the summary balance sheet as of June 30, 2016 and the related summary income statement, summary statement of other comprehensive income, statement of changes in equity capital and summary cash flow statement of Ålandsbanken Abp group for the six-month period then ended, as well as other explanatory notes to the consolidated financial statements. The Board of Directors and the Managing Director are responsible for the preparation and fair presentation of this interim financial information in accordance with IAS 34 Interim Financial Reporting and other Finnish rules and regulations governing the preparation of interim reports. We will express our conclusion on the interim report based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with the Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards on auditing and other generally accepted auditing practices and consequently does not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim report, in all material respects, is not prepared in accordance with IAS 34 Interim Financial Reporting and other applicable rules and regulations governing interim financial reporting preparation in Finland.
